

Gaurav Singh Solanki

Full-Stack Developer · Android & Web Builder · Founder

Vrindavan, Mathura, Uttar Pradesh, India

I build useful digital products across Android, web, full-stack systems, and agentic AI. My work connects real needs with clear product decisions, from founder products to client-facing websites.

Core practice

Android & mobile products

Web interfaces & full-stack systems

Agentic AI workflows

Founder-led product development

Current focus

Building Teerthak

Exploring practical agentic AI

Collaborating on thoughtful web and mobile products

Learning through real product work

1 Selected work

Teerthak

Founder product and AI-powered pilgrimage companion for temple context, routes, Panchang, aarti, darshan, and spiritual travel guidance.

teerthak.com
